

PRODUCT INFORMATION

The CAB60 is a well-constructed, 6 way cabinet, capable of housing a variety of LV electrical equipment. Using our latest designs we have created a truly functional and street tough enclosure. The plastic construction not only delivers a cabinet that is easy to lift and install but it also handles the UV and weather, to provide a longlasting asset. The long throw lockable latch and two captive screws ensures the door stays closed when it's meant too.

MAXIMUM FUSE CAPACITY

- 6x 400 3ph Din OR 250A Din
- or 2x 400 3ph DIN and 8 x 160A 3ph Din (using adapter plates in 100 slots)
- or 3x 250 3ph DIN and 6 x 160A 3ph Din (using adapter plates in 100 slots)
- or 12x 160 3ph DIN (using adapter plates in the 100 slots)

FEATURES

- Double skin door and cabinet for greater strength
- Reversible door hinge for location convenience
- Features two locking mechanisms: a long throw latch and two captive screws
- Removable cabinet lid for easy maintenance
- Pre-installed PVC back panel for mounting busbars, or other equipment
- Fitted with a 13-way neutral bar for convenience
- Lock isolated from electrical circuit for safety
- Base has removable front panel for easy access to cables
- Air ventilation to help air flow
- Impact and graffiti resistant to reduce maintenance
- UV and heat resistant to increase asset life
- Plastic cabinet and base recyclable with GYRO-cycled program

Optional Features

- Locking cylinder can be changed to network requirements
- Fuse carriers/disconnects fitted to your network requirements
